STARTLING BUT TRUE!
WHAT EVERY WOMAN SHOULD KNOW.
How often, happens that the wife laments from year to year that suitable medicine is not taken for one thing or the other, and thus causes much unnecessary suffering, and deprives her husband of the enjoyment of health.
THE BLOOMING BRIDE,
But a few years ago in the flush of health and youth, and buoyancy of spirits, rapidly, and apparently inexplicably, becomes a feeble, pale, sallow, debilitated wife with frame emaciated, nerves shattered, spirits depressed, countenance bearing the impress of suffering and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which ends in disease, suffering and misery, not only to the wife, but often

"And shall this continue? Must this be? Is there no remedy for the evil?" Yes hope!
The remedy is by knowing the causes and avoiding them by knowing the remedies and heeding by them. The causes pointed out.
THE MARRIED WOMAN'S
PRIVATE MEDICAL COMPANION,
BY DR. A. M. MAURICEAU,
Professor of Midwifery or Women
One Hundredth Edition, (100,000), 18mo., pp 250
ON FINE PAPER, EXTRA MUSLIN, $1 00.
A standard work of established reputation, found classed in the catalogues of the great trade sales in New York, Philadelphia, and other cities, and sold by the principal booksellers in the United States. It was first published in 1848, since which time
FIVE HUNDRED THOUSAND COPIES
have been sold of which there were upwards of
ONE HUNDRED THOUSAND SENT BY MAIL,
attesting the high estimation in which it is held as a reliable guide and friend.
BOOK FOR EVERY FEMALE
The author having devoted his exclusive attention to the treatment of complaints peculiar to females in respect to which he is yearly consulted by thousands both in person and by letter.
Every woman can decide, by comparing her own symptoms with those described, the nature, character, cause and the proper remedies for, her complaints.
The work is about becoming a host or has often need of instruction and advice of the utmost importance to her future health in respect to which her sensitiveness for fear of assailing a medical gentleman, will find such information and advice, and also explain many symptoms which at present would occasion anxiety or alarm as all the peculiarities incident to her situation are described.
How many are suffering from obstructions or irregularities in the female system, which undermine the health, the effects of which they are ignorant and for which Such delicacy forbids seeking medical advice. Many are Dying from prolapsus uteri (fallen of the womb), or from fluor albus (whiteness, falling of the). Many are to constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and also pine and unceasing recoveries. Some whole lives are rendered miserable by such, when such ills in part the means of prevention and relief.
It is of course impracticable to convey fully the various subjects treated of in the work of a nature strictly private or the married or those contemplating marriage.
Ladies, have you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Then your sincerity, and love no time in learning what causes disorders with their health and happiness not less than your own. It will avail to you and yours, as it has to thousands, such a way of pain and anxiety followed by sleepless nights, incapacitating the mind or frame and many accidents and exhausting those means for medical assistance and advertised nostrums which otherwise would provide for declining years, the sufferings of age and the proper education of your children.
In consequence of the universal popularity of the work, as evidenced by the extraordinary sale various imposters have been attempted, as well as booksellers as to the public by imitations of the page upon page without, and every means infringements of copyright and other dishonorable deceptions, it has been found necessary, therefore, to
CAUTION THE PUBLIC

A Valuable Book!
JUST PUBLISHED A NEW BOOK entitled the
SEVENTH CENSUS,
OR STATISTICS FOR BUSINESS MEN—showing the Name, Location, and population of every State, County and Town in the United States, together with the size or extent of the Territories, Mounds, Burying, Agricultural and Manufacturing Interests of each State, alphabetically arranged. Also a Political Register for the State of Maine for 1855.
PRICE 50 CENTS.
C. M. ATWOOD, Publisher, Gardiner, Me.
The following are a few of the many notices of the press which this book has received:—
The Seventh Census or Statistics for Business Men is the title of a volume just issued by Maj. C. M. Atwood, of this city. Besides a well made compendium of the census, it contains a political register of the State of Maine for 1855, which will be found very valuable.—Northern Home Journal.
For the next ten years it will answer all questions relating to the quantity and business of the United States, and will be of value to all who own it and ought to be in every house.—Gospel Banner.
It is a useful work and should be found in every workshop and counting room in the State.—Kennebec Journal.
It is a useful work, and will no doubt meet with a ready sale.—Bath Times.
It is a convenient book of easy reference.—Christian Mirror.
It is quite a useful book.—Portland Inquirer.
It is a valuable work and should be possessed by every man in the country.—Democratic Standard.
This is a valuable and useful compilation for all sorts of people—more especially for business men.—Bangor Courier.
A valuable and much needed work.—Hallowell Gazette.
Agents wanted to sell the work. Good encouragement given.
On the receipt of seventy-five cents letter stamps the book will be sent free of postage.

PORTLAND ELECTION.—Hon. Neal Dow was elected Mayor of Portland, yesterday, by (as the dispatches has it) 47 majority over McCobb (Anti-Law and "Fusion" candidate.) The vote stood, however, gives him 74 major ty. Dow 1934, McCobb 1860. This is a very large vote—larger by four or five hundred than it was three years ago, when Dow was defeated by a similar coalition, by about 400 major ty. It would seem that most many "adopted citizens" could have been disfranchised by the new law, for the increase in the vote shown as above is quite proportionate to the probable increase of population. We see, moreover, that the old Board of Aldermen, on Monday, voted to place on the voting lists the names of all foreigners naturalized previous to the passage of the late law, and who could show naturalization papers. They therefore all voted in this election. The liquor men have made a desperate effort to defeat Mr Dow, as they did in 1852; but have failed this time.

The result of the recent Kansas election as indicated by telegraphic despatches, agrees pretty much with our anticipations, although we hardly expected so complete a victory of the pro-slavery interest as appears to have been achieved. The result (although in a large degree, without doubt, due to fraudulent votes by those no actual residents,) shows that freedom has labored under great disadvantages in the contest or settling the new territory. The resources of slavery have been found to lay near the scene of the contest for successful resistance. Voters in the interest of slavery have been drawn from Missouri and Arkansas with the utmost facility, and although the emigrants from the free states have been numerous they are still found too few.

The facts in the case of Kansas show most conclusively the immense importance of Governmental prohibition of slavery in territories. They show that such actual prohibition was in that case the only safeguard against the introduction and prevalence of slavery there, and that the repeal of that prohibition was, in fact, the establishment of slavery there. The only course now is to refuse to admit Kansas as a slave State.

The editor of the Journal now narrows down his strictures upon the new city Watchmen, so as to make them apply solely to Mr Withee. He says he did not mean to apply this former language to Mr Russell at all. (By the way, he did speak of the "Captain of the Watch being thrust aside to make room for Sargeants" and remarked that the "best men of the Watch had been left off, and their places poorly and miserably supplied,"—and as there were only two new appointments, the language of course applied directly to Mr D. But let that pass. The Journal's object now seems to be Mr Withee, and it has any other complaint to make against him than that he has been active in trying to have the Maine Law executed it does not yet appear. The Journal temperance men who undertake to execute that law, are still complaining of us because we intimate that the conductors of that paper are at heart opposed to it.

THE OLD TOWN FIRE.—We earn that the fire at Ken Orrington, on Monday evening, was from the burning of the barn and carriage-house of Mr Ephraim Goodale. A horse and colt, yoke of oxen, four cows, two young heifers, and a out five tons of hay, were destroyed. Mr Goodale had been at work in the barn but a few minutes before, and thinks he must have dropped some matches from his pocket while creeping under a temporary pen he was building. The loss is between $700 and $800. Insured $500 at the Penobscot Mutual Co.

POLICE COURT, *April 3d.*—A laboring man by the name of Bean, who has been at work in the woods, came to the city on Saturday, with $45 in his pocket. He stated in court that he bought a pair of Wm. Fitzpatrick, and of Mrs D. Ward, became intoxicated, and found home in the watch-house, Monday evening, minus $10 in cash.

Mrs Do. was fined $10 and costs for selling the liquor. Appealed.

Fitzpatrick to be examined to-day.

BANGOR SAVINGS BANK.—The semi-annual meeting of the Trustees of this Institution was holden on Monday, 2d instant, when it appeared by the report of the Treasurer, that the amount on deposit was $31,513,65, that 19[illegible] depositors were entitled to dividends of interest amounting to $701,93, and the same was voted by the Trustees, and is payable on Monday next, 9th inst.

In the Plumley case, Mr Knowles, for government, commenced his argument yesterday morning, and from appearances will continue his remarks throughout to day.

We return thanks to Edwards & Co's Express for late Boston Evening papers.

THE ACCIDENT TO MRS. DANIEL WEBSTER is alluded to in the telegraphic report of yesterday, in these words as the papers:

At New York, on Friday afternoon, as Mrs Webster was riding on Fourteenth street, in a carriage, in company with Mrs. Edward Curtis, whose guest she has been for some time, the horses started and ran off at a dangerous rate, and Mrs Webster, to her alarm, took the fearful step of leap ng from the carriage, and was thrown upon the curbstone of the side-walk and seriously injured. She remained insensible through out Saturday.

[On Monday she was in a fair way of recovery.]

THE LAST SPANISH OUTRAGE.—The National Intelligencer has turned to the Blue Book, and finds there is no such office as "the book of Vice Consul at Bogota in Grande," and Mr Thompson's name is not found among the appointments. It explained a doubt whether any such officer was legally at Bogota in Grande, or whether the arms of the United States were placed over the door of Mr Thompson's office and legal authority, or for the purpose of protecting any interest of the United States.

Meeting of the A. A. B. F. S.

Agreeably to a previous call the Associate Alumni of the Bangor Boys' High School, assembled last evening (April 3d) at the Police Court Room, which was densely crowded.

Rufus S. Morison, President of the Association, took the Chair, and Charles P. Wiggin was appointed Secretary.

The President stated the object of the meeting, which was to consider the action of the Superintending School Committee in relation to Dana Worcester, Principal of the Boys' High School.

Remarks were made by Messrs. S. P. Dunmore, C. C. Roberts, John D. Lambert, E. W. Page, W. L. Lambert, John C. Flint, Robert Hartley and others.

On motion of E. W. Flagg a Committee of five was raised to consider and report to the meeting the method of action to be pursued. The Committee raised, consisted of Messrs. E. W. Flagg, C. C. Roberts, John D. Lambert, S. P. Dunmore, and Thomas J. Steward, who subsequently reported:

That a Memorial signed by the Alumni should be addressed to the Superintending School Committee requesting them to allow the Association to be heard in regard to the investigation, removal of Mr Worcester, and that a Committee of ten should be raised to prepare and take said Memorial in charge, procure signatures and take such steps as to have the views of the Association represented at any meeting of the School Committee at which the subject may be taken into consideration.

The report was accepted, and the following Committee was raised Messrs R. S. Morison, John C. Flint, H. G. O. Morison, J. D. Lambert, Geo. C. Pickering, A. C. Haskin, T. J. Stewart, N. S. Harlow, Colin Foster and Philip Strickland.

Voted, That the proceedings be published in the Daily papers, and that the Committee be authorized to call such future meetings in reference to the matter as they may deem proper.

R. S. MORISON, President.

CHARLES P. WIGGIN, Secretary.

Variety.

The steamship Union, from Havre and Southampton March 14, put into Halifax, N. S., for coal, on the 31st, having experienced a very rough passage, and was to proceed on her voyage on Sunday.

It is proposed to construct a submarine telegraph to Cuba from Florida. A Southern exchange says that it is practicable and will be entered upon at once.

William S. Archer, of Virginia, died at his residence in Amelia county, on the 28th instant, after a few hours' illness. He represented his native district in the House of Representatives from 1820 to 1835, and in the Senate of the United States, from 1841 to 1847.

The time for receiving proposals for the erection of a custom House at Belfast, Maine, has been changed from June to May.

The New York Post acknowledges the receipt of $2K, to be appropriated towards the purchase of Lucia for the woman in Maine, who turned out with a shovel to dig a way through the snow for her neighbors to get to the school-house.

The Vineyard Gazette states that 1000 barrels of whale oil were sold at Holmes' Hole, last week, at 61 cents per gallon. A lot of 700 barrels was also sold at the same place, at a fraction above that price.

The "Burnt Fort" Case. The parties charged with participating in the Burnt Fort, last May, will be tried this week in the United States Circuit Court.

For the Daily Whig and Courier.

The City Agency.

There has been very general complaint that under the late repeal one of the "City Agency" for the sale of spirituous liquors, a large amount was obtained for improper use, not contemplated by the Law. A little reflection will convince any one that it is no easy matter so to regulate the sale as to obviate the objection.

The Committee who have this matter in charge, in introducing the Regulations which have been adopted by the Board of Aldermen, have endeavored to provide against the sale for improper use to the best of their ability. These regulations will subject many a one worthy citizens to some small personal inconvenience, but it is to be hoped that they will be cheerfully submitted to by all those who wish to secure the object aimed at. It is also earnestly desired that physicians in giving out certificates will exercise all necessary caution, as they will have in their power materially to aid in securing this most desirable object. Certificates from each physician will be kept separate by the Agent, for inspection.

J. T. R. HATWARD,
Late Committee on City Agency.

MONEY.—*Boston, Monday morning, April 2.* There was a little more activity in money matters during the latter part of last week but without change in rates of discount. Money was abundantly supplied for everything desirable in the shape of security, and on Saturday the demand perceptibly slackened in the street, with the same quotations as previously noted. One cause of the slightly increased demand was the more extensive purchase of the Banks in anticipation of the dividend payments, and it may be stated also with truth, that the transactions connected with the melancholy suicide of Mr. Hooper had some little influence in the street, tending, not certainly to, to diffuse a gloomy feeling, and causing every Bank and Insurance Office in State street to look more carefully into their accounts. It is a strong proof of the very easy condition of our money market to find outside resources so ample, and that the result of a little consternation by the Banks has not caused the least variation in discount rates.

We quote for first-class paper 6@7 per cent; good notes not strictly of that rate 7@7 a 8, and four names 8@9. On call, the range is from 5 to 6 with satisfactory collaterals.

The foreign news is capable of decidedly favorable, not only in a financial point of view, but as to the prospects of a peaceful result from the Vienna Conference. In England, hopes of peace are evidently much stronger, and there is an improved tone in commercial matters. Consols had risen to 83.—*Boston Journal.*

FREIGHT SUIT.—We learn from Edwards & Co's Express that the schooner Lansing, Curtis, of and from Lamprey, bound to Rockland, laden with brick &c. lumber, was on the morning in the river near Mill Creek, the ice having moved in her ports. Two of the crew were washed overboard. They succeeded in anchoring themselves on some sticks of lumber, till by the opportune arrival of the steamer D. Webster they were rescued and taken on board, nearly frozen. The remainder of the crew were taken from the wrecking of the schooner on all sides by means for the steamer.—*Advertiser &c.*

Details of the Asia's News.

We give below two or three of the more interesting foreign extracts, which we find in the Boston Chronicle.

I seems, from the remarks of the English press, generally, that the dying declaration of Nicholas, to the effect that he had made a mistake in this war, and advised peace, were regarded as authentic. The Liverpool Times says that he lived long enough to be undeceived in regard to the probability of a cordial alliance between Eng and and France, and to feel the blows which they could inflict on his empire; and with his last breath he conjured his son to dissolve this alliance between the Western Powers, by conceding all that they required. He is said to have used these remarkable words—"France alone, aided by the navy of England, was capable of throwing an immense host into the Russian territory, as I would pass over the body of Prussia to do so, if necessary."

DREADFUL GALES IN THE ATLANTIC.

The American vessels which arrived during the week have encountered very severe weather during their voyages. The Manhattan, arrived here on the 12th inst., encountered a violent gale from the northeast, with a tremendous sea, on the 20th of February, in latitude 13, lon. 62; and while lying to under a close-reefed top sail, encountered a hurricane struck the ship. The James White, from Charleston, and the New York, from New York, encountered the same hurricane as the Manhattan, but on the 21st. The Star of the West, seems to have encountered the most severe weather. Capt. Dowhaward reports having, on the 21st ult, encountered a heavy gale from E S E, which increased to a hurrican next day. On the 24th the gale still continued from SW. In lat. 41, lon. 50, had her decks swept, the ship much strained, and making much water. Passengers constantly at the pumps, and crew throwing cargo overboard, till the 28th, and endeavoring to stop the leaks. About 150 to 200 tons Indian corn and leather were thrown overboard—lost sails, spars, bu washs, stanchions, &c.

DEATH OF NICHOLAS.

During the whole time he was ill, the Emperor lay only on his camp bed, used on a campaign of Russia leather filled with hay, a bolster of the same kind, and with a blanket and his cloak over him.

It was not till February 28th, that he statewas looked on as decidedly serious. On the night he became rapidly worse. The physicians apprehended a paralysis of the lungs. On the evening of March 1st they despaired of his recovery.

The Emperor said subsequently, to the Empress—"Do go now and take a little rest; I beg of you." She answered—"Let me remain with you; I would I could depart with you, if it were only possible." To this the Emperor replied—"No, you must remain on earth. Take care of your health, so that you may be the solace of the whole family. Do now; I will send for you when the moment approaches"—The Empress could not do otherwise than obey his distinct expression of the Emperor's will and left the room.

Whilst the Emperor's father confessor was speaking with him, he took the Empress' hand and put it into the priest's, as if he would confide the Empress to the ecclesiastic.

After this the Emperor lost his speech for a while, during which time he was engaged in prayer, and crossed his self repeatedly. He subsequently regained his voice, and spoke from time to time up to his decease, which took place without a struggle in the presence of the whole family, March 2, at ten minutes past noon.

Almost the last articulate words that he Emperor spoke were, "Dites a Frtz (King of Prussia) de rester toujours le meme pour la Russie, et de ne pas oublier mes paroles de paix," (the late King of Prussia.)

At first the face of the corpse was very much sunk and fallen in, but in the evening the fine features had become more imposing than ever, from their repose and regularity.

Up to the present time, the Empress has borne the unexpected and fearful blow with wonderful strength. Yesterday evening she passed an hour entirely alone with the corpse.

The consternation which pervades every one at the suddenness of this dreadful blow, is now giving place to the feelings of pain and grief, that death had seized upon the royal victim. Letters and sketches from the Russian capital, teemed with accounts of his drooping state and was bygone appearance long before his decease.

DEATH OF DON CARLOS.

Don Carlos expired at Trieste on Saturday, the 10th inst. The Morning Post says:—"Among the exiled royal personages whose recent fortunes have illustrated the eighteenth century, few have occupied a more prominent position than this distinguished prince. Born in 1788, Don Carlos passed his early life in Spain, and married, in 1816, the Infanta Maria Francisca d'Assisi, daughter of John VI, King of Portugal. On the death of his eldest brother, Ferdinand VII, in 1832, Don Carlos disputed the succession to the throne of Spain, and, after a protracted war of varied success and disaster, retreated into France in 1839, when he was placed under surveillance by the government of Louis Philippe, and confined to the city of Bourges until 1845, when he retired to Italy.

Don Carlos lost his first wife in 1834, and was married secondly on the second of February, 1838, by proxy, at Salzburg, and on the 29th of October, of the same year in person, at Appelitz, to the Infanta Maria Theresa, Princess de Beira, daughter of John VI, King of Portugal, and widow of the Infante Don Pedro of Spain. By his first marriage Don Carlos leaves two sons, to the eldest of whom, Don Carlos Luis Conde de Montemolin, he orders his claims on the Spanish throne on the 15th of May, 1845. The Conde de Montemolin was married in July, 1850, to the Princess Mary Caroline Ferdinanda, sister of Ferdinand II King of the two Sicilies.

DREADFUL INUNDATION IN HOLLAND.

Accounts from the provinces of Guelderland and North Brabant, state that in consequence of the thawing ice of the rivers having raised itself in various points into cheraucaes, a vast quantity of territory has now entirely under water. As many as seventy villages are submerged; and when it is considered that the inhabitants of these villages are mostly of the very poorest class, some idea may be formed of the great distress that prevails, and will for a long time prevail among them. Since 1820 such inundations have not been known in Holland. At Arnhem, enormous dams have been constructed on all hands, to prevent the entire town being submerged. The Rhenish railway will, it is apprehended, become impassable. In the village of Vecendaal the water covers the tops of the houses, most of which will be left, undermined or in ruins.

MISCELLANEOUS.

The funeral of the late Czar was to take place on the 2d inst.

Accounts from St. Petersburg state that the taking of the oath of fidelity to the new Emperor, and its general all sets at homage to him, have been marred by a total absence of guilty silence.

The Pope is about to erect a colossal image of the Virgin Mary at Rome in celebration of the triumph of the Immaculate Conception dogma. Three hundred pounds are to be worth of virgin Alastia is used.

BUSINESS.—Our country never had so much capital as it has now; its vast resources never were so much at command as they now are; in a word, never did land have at command more of all the elements that constitute real prosperity.

But there is what may not improperly be termed a disproportionate state of things existing at the present time. In a land literally flowing with milk and honey, with a producing capacity that has hardly been paralleled, the necessaries of life are so enormously high as to bear hard on the mass of consumers, for the going rate of wages can hardly enable a thousands to purchase what they really need, from day to day for their families.

It is difficult, as most times, to get at the real cause of the commercial revolutions, and it is difficult at his time to assign satisfactory reasons for the present state of things; to say why in a land abounding with old Egypt in wheat producing power, and running far ahead of all other lands in contributive capacity—in the means of intercommunication and commercial activity—there should be so short a supply of flour; or why, when flour is could cover thousands of hills, meat should be so dear. Explanations may be very ingenious and plausible, to account for it, and theorists may make it as clear as sunlight—to themselves. Some lay it to tariff, some to war, some to currency.—The very fact that speculation is so various as to paper, shows how complicated the true cause of prices are, for in all these theories, it may be admitted, that there is an element of truth.

One thing may be generally affirmed, that common sense, and common judgment, have a good basis. If not people will say that now the profits on flour and butter, and animal food, touring to somebody are too large. And this opinion is founded on something like this: there is an existing idea as to the general average cost of producing articles, and it is seen that prices range far above this cost. Hence the conclusion is drawn that somebody is making too much money out of the consumers.

When this is the case, another result is sure to follow. Men will leave pursuits that yield little profit for others, which are making those that follow them rich. The high profits of agriculture must tempt to the most noble pursuit. The great regulator, the law of demand and supply, will soon adjust what is now disproportionate. The production will keep the wheels of trade briskly in motion. Tell us not that the country is poor, or growing poorer, that the great producing power, the farming interest, has been starving in high prices. It has been stocking capital as it never stocked before. It, all through the country credit has been lavished on speculative schemes, and capital sunk in unproductive railroads, yet these have contributed immensely to the nation's property.

Just now money is abundant. There is an indisposition to buy on credit, or even to buy anything that has will serve for the purposes of the day. The trader buys no more than will be enough to keep his regular customers supplied—the consumer buys only enough for the passing hour. It is settling time, and comparatively few notes are passed. How surely is it the pathway of individual honor, and, in the long run of individual independence. How many aching hearts would be saved if there were no wild dreams of sudden wealth, of mining, lumbering, landbuying and other wild goose schemes never tempted the laborer from his plough, the merchant from his store, the mechanic from his shop, and professional men from their pursuits! This however, (with is human nature,) can hardly be expected when prosperity comes to their level. When our yesterday's astounding developments in stock gambling are forgotten, things will go up on—everybody will be ready to buy something, the buyer will be tempted by the long credits—the base of trade—tendered by the seller. The credit will again be piled up, our monetary system adding to raising the pile; and then, when it is top heavy—when there is heard the command "Rat Le" uttered, nobody knows by whom—to be uttered nobody knows since—our monetary system helps to tumble over. When this is the case, there comes what is termed the commercial retaliation. The wise will steer clear of long and large credit.—*Boston Post*

THE EXECUTION OF PINTO.—According to the sentence of the magistrates of the Audiencia, Don Ramon Pinto was garroted on Thursday, the 22d. Mr George Cadellford, of Savannah, Geo., who is named in the label, was present and witnessed the execution. By decree it is a sickening and exciting scene.—The whole military force at Havana was under arms, and surrounded the place of execution. Pinto was brought out protested, denying his guilt to the last. At the garrote, he exclaimed—"I am innocent of the charge of conspiracy made against me." As the fatal machine was pushed, a shudder of horror went through the crowd. Contrary to the custom, the body was allowed to remain but a few hours in public.

Up to the day of execution it was the general belief that Pinto would be pardoned. His rank, character, services, and the doubt which all hung over his guilt, pleaded strongly in his favor. Petition after petition, also, from every class of citizens, flowed in upon the Captain General, but he was deaf to their intreaties. It is said that to escape these importunities, he even retired to Matanzas. Up to his time the Spanish population had warmly supported him, but when they found him inexorable, they broke out in the most violent invectives.

This state of affairs was mainly brought about, it is said, in consequence of what appears to have been the vindictive conduct of the Captain General. Some informs say having taken place on the trial, the Minister of War refused to countersign the death warrant on the ground that the evidence connecting Pinto had not emanated from some whose character stood as clear as the sun at mid day, but from one who had served two apprenticeships at the chain gang. The Captain General thereupon convened a council of four, and, after deliberation, two declared themselves in favor of the death penalty and two for squalid. The casting vote was then left with the Captain General, who, instead of inclining towards the side of mercy, condemned his former secretary and friend to the garrote—hence the indignation.

THE DISAPPOINTMENT OF A LIFE.—The Ericsson experiment is at an end. The invention is conceded to be a failure, and poor Ericsson is a ruined man. He has spent all his fortune in building his caloric ship and in the experiments he has made on the vessel. He has done more; he has sent all his wife's fortune, which is great, and she, too, is beggared. But the worst of all is that it has led to such recrimination and alienation that they have separated, never to be united again. Had he been successful, his name would have been enrolled with that of Columbus, Newton, Fulton and other men of illustrious renown. But he has failed; he has lost his all; he has introduced ruin into a once loving and happy home, and the world coldly looks on, and says, "I told you so."—*Boston Journal.*

A WINDFALL.—The New York Commercial Advertiser says:

"We learn by telegraph from Halifax, that the ship James Chester, from Baltimore, with a valuable cargo of flour, pork, &c. &c. had been fallen in with at sea, abandoned, by the British ship Marathon, the crew of which put the mate and six of the crew on board, who succeeded in getting the James Chester into Liverpool. This will be a capital prize for them, as she is now a new vessel, built in Baltimore in 1854, and is 1073 tons burthen—valued, at about $70,000. The cargo when she left Baltimore, was worth at least $150,000. There is insurance on both vessel and cargo in this city, Baltimore and Europe."

NINE MANIACS IN CONGRESS.—The Louisville Journal was in Washington during the last few weeks previous to the adjournment of Congress. He gives the following:

A couple of merry fellows, one of them a distinguished member of Congress from a southern State, and the other a distinguished ex-Governor from Kentucky, connected a letter purporting to be addressed by a young lady to a very fine-looking gentleman. It was got up in that rare style. The pretended lady set forth that she had several times seen the gentleman who was addressing, that she was captivated by his fine face and manly form, that her heart was deeply touched by all she saw and heard of him, and that she must make his acquaintance before he left the city, that she hoped and prayed he would forgive her seeming boldness as it was the first single deed of her life that she had always moved, and was still moving in the highest circles in the capital that she would be upon a certain square at a certain street at precisely 12 o'clock on the following day, in a dress that she deemed best suited to her particular style, and that she hoped and trusted that he would improve her and thereby afford her an opportunity for a brief personal interview with the idol of her heart. If the two wags had written thirty and forty copies of this letter written by a female friend of theirs, and they sent three copies to between thirty and forty members of Congress, selecting those of course who were known to entertain a very exalted opinion of their own personal fascinations.

Everything being thus arranged, the two jokers acted upon the old mother-o'-a-gentleman, explained what they had done, and invited us to step into their carriage, ride with them to the point of assignation, and see the sights. We unhesitatingly consented, and we drew eight times enough. Riding on to the designated square, we beheld the whole of the thirty or forty members, Northern anti-slavery Southern rights, Whigs, Democrats and Know Nothings, walking to and fro, all gazing in every direction and at every female figure to discover the object of their anxious search.

We concluded that if a few more copies of the letter had been sent to members of the House of Representatives, the House would have had to adjourn for the want of a quorum.

EXTRAORDINARY DEATH FROM HYDROPHOBIA.—Mr A. Rodgers, of Franklin, Ohio, died of hydrophobia last week. He was struck by a mad dog fifty years ago. He was a man of powerful physical frame, weighing near 250 pounds, it is probable that the strength of his constitution kept the effects of the virus in his system subdued. On the 15th of January, however, a small ball appeared, but him on the hand which he instantly scratched to his side that he never felt such pain. A severe headache and a slight fever ensued. When Mr. Rodgers became aware that the dog was mad, he at once felt that under his peculiar situation with the virus of a former attack his system was now hopeless, and accordingly made his will, commissioning his force to no operation, not even necessarily. A few mornings after was taken an attempt to wash his hands in a tub of water, but failing to get his hands into the water, he ate but little breakfast and at a short time went to bed. About 12 o'clock P. M. that night he was seized by a fearful spasm. During all his sufferings to the very moment of his death he was conscious of his condition, and seems to take particular care to harm no one during his raving fits, although he was in no way secured, save to the same room with his friends and attendants.—*Boston Post*

FROM WASHINGTON.—It is now positively stated that there will be no extra session of Congress. The Black Republican outrage still stimulates the wrath of the President. The cabinet council is ere protracted meeting. The President, Davis, Dobbin, Guthrie, Cobb, Hall and McClelland are still for war, and Mason and Cushing for peace. Davis is particularly fierce, as becomes a "ranger leader." Mores rather justifies the firing into the El Dorado. Orders are to be sent to all the naval stations to have all available vessels and material prepared for instant service, and it is even said that a portion of the Mediterranean and Brazil squadrons are to be recalled.—*Ibid.*

JAPAN.—The Rev. Dr Bethlehem, who has been engaged in missionary labors at Loo Choo since 1845, gave a very interesting statement of his experience, before a number of clergymen attached to the Methodist Episcopal Church, in New York on the 30 ult. He gave his views upon the prospects of missionary and commercial intercourse with Japan, and declared it to be his conviction that it will require many years of patient missionary effort there, before American merchants will be able, not only to acquire money, but even to spend it in the way of commercial negotiation.

REMOVAL OF A CITIZEN.—We have noticed in the Portland papers that a house and lot have been sold to a Bangor purchaser for $ 600.—We presume this estate has been purchased by our esteemed fellow citizen, John True Esq., who, we understand is about moving to that city. While we regret to lose one who has been so long with us, we congratulate our Portland friends that an worthy a man is to be added to their number. Mr. True has been a resident of our city some twenty-eight years, and through all the fluctuations of trade of that length of time has maintained a character for uprightness, probity and fair dealing, and generable to a per cent, business man.—*Journal.*

Miss Lottie Campbell, of Dover, Me., a young lady of rare genius has been delivering public lectures in rather a quiet way in several of the towns in the County. She advocates the reforms of the reformers of the day, not excepting the rights of women, but in a less pretentious way than some of the public lecturers of her sex. Her lectures in Hampden and Oldtown are spoken of in terms of high commendation. Those who have heard her are confident that she is not a Hunker.—*Jeffersonian.*

TO THE DAILY WHIG AND COURIER

Later from California!

Arrival of the Steamer Star of the West.

New York, April 7.

The steam ship Star of the West reached her dock at about 6 o'clock, with about 200 passengers and $2,000,000.

The Star of the West connected with the Sierra Nevada, which left San Francisco on the 5th.

The California news is of little interest.

The publishers of the California Statesman have prosecuted Senator Gwynn for breach of contract, laying their damages at $25,000.—The Statesman says Gwynn's Sacramento organ, and the publishers allege that he contracted to procure for the paper certain government printing at Washington, and due to its support in connection of the advocacy of Gwynn to the U. S. Senate.

Business was exceedingly depressed and money very stringent.

The rains commenced, and miners were becoming ragged, but owing to the scarcity of provisions little dust had been bought.

The Kern River Diggings were attracting thousands, being reported as the richest yet discovered.

Wells, Fargo & Co. were going ahead as formerly.

It was doubtful when Page, Bacon & Co. would resume, while all the bank failures were in funds.

At Sonora, depositors broke open the vault of Adams & Co., and although a committee paid thousands, leaving a balance of $8500.

Blake, who shot Morey, a contractor at San Francisco, who swindled him out of $1500, has been found guilty of murder, but recommended to mercy.

John Tabor, who shot and killed Mansfield, of the San Joaquin Republic, had been parsoned.

Nearly every article of merchandise had declined.

Ruseil flower sold at $12.50; crushed, sugars 11½ a 12c.

Provisions not much changed, though rather lower.

From Havana.

New York, April 4.

The steamship Black Warrior arrived this morning, with Havana dates to the 29th ult.

The U S steamers Princeton and Fulton were at Havana. All well.

The Fulton was to sail for Norfolk on the 31st.

Numerous additional arrests had been made at Havana. Amongst them Don Carlos Castillo, the Manager of the Bank for Savings; Alcazar, a wealthy Broker, whose only offence is believed to have been expressions of sympathy for Pinto.

Col Robertson, Acting U. S. Consul, is understood to have sent in a strong a protest against the so called trial of Estampes and Ferrer, and to have induced the Captain General to refer the matter to the Spanish Ministers at Washington, before carrying sentence into execution.

The jails and forts were full of political prisoners.

An announcement had gone forth that six companies of colored militia were to be established at Havana.

Protest---Shipment of Gold.

The drafts of Sixth Page & Bacon of St Louis and Page, Bacon & Co. of San Francisco, were allowed to go to protest in this city to-day.

The shipment of gold by the Atlantic to-morrow, it is said, will probably reach $1,500,000

Municipal Election.

Pittsburg, April 3d.

Hon Neal Dow is elected Mayor, by a majority of 47—Dow 1004, Jas. T. McCobb 1830.

The Know-Nothing vote was thrown for Mr. Dow and turned the scale.

Four Dow Aldermen, and three Opposition. Three Dow Councilmen, and nine Opposition are elected. There are two vacancies.

Connecticut Election.

Hartford, April 3.

Sufficient returns have been received to make the election certain of the Know-Nothing and Whig Congressmen. Of the 21 Senators 20 are claimed as Know-Nothings and Whigs,—Mr. K. No. will probably receive the highest vote for Governor. The election by the Legislature is certain.

A "Fast" Horse.

New Orleans, April 2d.

The great race against time, for a purse of $2,000 came off to-day, and resulted in the victory of Lexington, who did the four miles in seven minutes, 19½ seconds.

Rosetta Declared Free. Election.

Cincinnati, April 3d.

Commissioner Pendleton has decided that Rosetta is free, and she was immediately delivered to her guardian.

Our Municipal Election is still undecided, frauds having been discovered in the 12th Ward where it is proposed to throw out the entire vote, which, will give Taylor, the American candidate, about 100 majority. Had the entire vote in the city been counted, the whole Democratic ticket would have been elected by from 500 to 1000 majority.

There was no more voting after the close of our dispatch last night. It is supposed that ten or twelve persons were either killed or mortally wounded, and the only wonder is that the loss of life was not greater. Fire-arms were discharged indiscriminately. It was altogether the most disgraceful election day ever experienced in this city.

The Ohio River.

Pittsburg, April 3

The river measures 6 feet eight inches, and is falling. Canal navigation is good.

Iowa Liquor Law.

A few scattering returns from the election in Iowa indicate that the success of the prohibitory liquor law.

Cincinnati Election.

A Mr. Brown was assulted at the polls in the 6th Ward, this P. M., by a foreigner, and severely beaten that he died in a short time.—The Know Nothings turned out en masse, and taking examination from the Dutch and Irish, turned upon them and died. Three afterwards recorded, and broke up the ballot boxes. The number of killed during the melee is not known.

Special despatch.—The 6th Ward contains a large majority of Germans, and it having been changed, the party were prevented from voting the American ticket in that ward. A large party of Know Nothings took possession of the ballot boxes, and destroyed the tickets. Several were wounded in the struggle which ensued, but no one was killed. Dr. Bryan brings yet alive and likely to recover, although badly injured.

THE LIFE OF

Hon. W. H. SEWARD,

HIS Speeches, Orations, and Writings. In One Volume, with a Portrait. Just published. Price One Dollar.

Mr. Seward's biography is excelled by that of no living statesman in interest and importance. His principles and sentiments are clearly and eloquently stated in the extracts embodied in this volume. Several of his best speeches are given entire. On Internal Education, Freedom and Internal Improvements, on the prominent topics of this book, as they are of the present age. In their discussion every true friend of Republican Institutions is now more than ever interested. To all classes of people, old and young, therefore, this book is presented as a Manual of Politics Philosophy. Bright views and principles embodying Freedom, and improvement in this country have come to be generally known as Sewardism, every intelligent person, on either side, requires to be fully "posted up" in the matter.

BOUNTY LAND.

BOUNTY LANDS.

IMPORTANT NOTICE TO

SOLDIERS, SEAMEN,

AND THEIR

Widows and Minor Children.

A BILL has passed both Houses of Congress granting Bounty Lands to the following classes of persons, viz:

One hundred and sixty Acres to all who have SERVED FOURTEEN DAYS IN ANY WAR of the United States, provided they have not received Land.

One hundred and twenty acres to all who have served and have received 40 acres.

Eight acres to all who have served and have received 80 acres.

And if the soldier has deceased without obtaining 160 acres, the same allowance shall be made to his Widow, or if no Widow, to his minor Children.

Service in the Revolution—in the War of 1812—and in all the Indian Wars, is provided for by said Act.

And all who served the above period in the Regular Militia of the State of Maine in the year 1839, is what is known as the

AROOSTOOK WAR,

Are entitled to its benefits. After the March sale of 1856, those who have received 160 acres are entitled to 80 more. The Aroostook Soldiers (Militia) are included in the above provisions. Widows or minor Children of deceased Soldiers, are also entitled.

Mr. M. has procured many Warrants under the former Acts, and being in possession of the Rolls, feels confident that he can give prompt attention to all who may place their claims in his hands.

No charge unless successful, and the highest market price PAID to those who wish to sell. *Office in Baldwin's Block, West Main Square, third door from A. W. Paine's office.*

ARMY and Navy Officers, Soldiers, both Regulars and Volunteers, Sailors, Marines, Militia-Men, Musicians, Wagon Masters, Teamsters. Indians and all persons who may have served fourteen days in any of the Wars of the United States since the year 1790, the Law of 1855 gives each of you, who have not heretofore received a Warrant for Land, One Hundred Sixty Acres! And all who have received Bounty Land, enough more to make the Hundred and Sixty Acres!!

In the case of the death of the person entitled to land, his Widow, or if no Widow, the Minor Child or Children, are entitled to the Bounty.

We are prepared to promptly prosecute all claims for land, and will supply Notices of Proofs, County Clerks, Commissioners of Deeds, Notaries Public, Lawyers, and all others, with the necessary instructions and blank forms, free of cost, on application, by mail or otherwise.

When desired, we will sell the Warrant at the market price, and remit a check for proceeds.

The Most Successful Remedy.

REV. WALTER CLARKE'S

Great European Cough Remedy.

—OR—

Universal Cough Mixture,

IS unquestionably the best remedy for Cough and throat and pulmonary diseases ever discovered. Read the following testimonials, and register they are all from persons of first rate respectability, and they all live in this State, and are willing to answer all enquiries addressed to them—field and usher for yourselves they are selected from a multitude of others.

From Dr. John Brown, Liberty, Me

DEAR SIR—I have made use of your European Cough Remedy for a cough with which I have been afflicted for some time, to my entire satisfaction and have also employed it in my practice with happiest results, and am well convinced that it is one of the best medicines in use for what it is recommended. JOHN BROWN, M. D.

Miss HEWARD, of Scarborough, had for two years and ten months been afflicted with a most distressing cough, with severe pressure of the lungs, and other painful symptoms. During the time she had rarely slept four consecutive hours, and took many of the popular advertised medicines with no sort of benefit, and was permanently worse. Many nights she was obliged to sit up for hours, not being able to lie down at all, and her friends despaired of her recovery. Last June she was induced to try Rev. W. Clarke's Great European Cough Remedy. A trial bottle, 25 cts., greatly relieved her, and encouraged her to try a large bottle 75 cts., and to the astonishment of all who knew her, she was entirely relieved in every other respect whatever, completely restored her to health, which she continues to enjoy.

Mr and Mrs HEWARD had themselves ready to answer all enquiries respecting the above extraordinary cure, and are satisfied that the European Cough Mixture is the best remedy known for Coughs and Disorders of the Chest and Lungs, and as such they recommend it to the afflicted.

Mr. Wm. Shute, of West Newbury, one of their neighbors, who was considered by his friends to be in consumption, was persuaded to try the European Cough Remedy, and the result was a rapid recovery.

Rev. Mr. Field's Case of Phthisic, with severe Cough, communicated by Mr. Brewster, Postmaster at Currier Corner, Ind. 28th, 1854. Rev. Walter Clarke—Dear Sir: Samuel Shaw, residing in Corner, Washington county, Me., has been afflicted with the Phthisic for a number of years. For the past winter he was so distressed for breath that he could not lay down. At last hearing of the European Cough Remedy, he sent for a bottle and commenced taking it. He was greatly relieved by the first dose, and for us that time he rested well at night. A few bottles completed the cure, and he now dresses in reasonable the pedigree to others, as he is fully assured that it is worthy of the utmost confidence.

The following testimonial was received from John Dresser, Esq., agent of Paris, Me., dated Nov. 8, 1854:

Dear Sir—You will recollect that when you were here I had a severe cough of three months standing. I had tried all the cough medicines I could obtain without success. Your medicine has cured it. It has also cured many of my neighbors. Please send me some more medicine immediately.

Yours, &c., JOHN DRESSER.

Rev. T. Driver, West Waterville, testifies to the extraordinary cure of a lady, who, to all appearance, was in the last stage of consumption, that it was thought she could live but a short time. A single bottle entirely set her on foot, and she speedily recovered. Hon. Obadiah Gile testifies that he knows another person who, a long time had been afflicted with the Phthisic, with severe cough, &c., who was completely cured by two bottles of the European Cough Mixture.

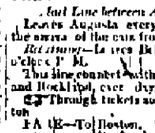
The Great Standard Remedy

—FOR—

PULMONARY DISEASES



Compounded of either Prussic Acid, Strychnine, Morphine, nor any other deleterious drug. Extensively used and approved in New England, Canada and the British Provinces during a period of THIRTY YEARS by eminent Physicians, Clergymen, Professors of Colleges, Theological Seminaries, Scientific and Distinguished Public Men,—and, in fact, by all classes of the community. See Pamphlets and Wrappers containing Certificates, among which are those of

Rev. Ira. Lyman Belcher, Boston, late President of Jane Theological Seminary, Cincinnati, Ohio.—Late Rev. Dr. Leonard Woods. Also the Prof. of Theology in Andover Theological Seminary, Mass.—Hon. Daniel P. Thompson, Secretary of State of Vermont.—N. P. Willis, Esq., formerly Collector of the Port of Baltimore and many Physicians of Baltimore and Philadelphia, Pa., and numerous others.

Hon. Jeremiah Hall Esq., Gentleman, of advanced years, aged about 76 years, has been complaining of a pain in his side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cases performed by Hoofland's German Bitters, I was induced to get them in her case, and sent to your store and purchased one *bottle*, which she took at one dose when she began coughing, and now, after using only one bottle, she is enjoying better health than she has for years—she feels as though that side or in any part of her body, and attributes her cure entirely to the German Bitters. WILLIAM CRANE,

Salmon Brook, Albert Co., N.B.

You thus see by this that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

WILBUR'S COMPOUND OF PURE COD LIVER OIL AND LIME.

THIS valuable medicine, which has received the sanction of the medical faculty, by whom it is generally prescribed, and which has been used successfully by thousands of invalids in one of the most remarkable preparations ever offered to the public, for the cure of Consumption, Scrofula, Chills, Asthma, Bronchitis, Spitting of Blood, and it compliments of the Lungs.

Pure Cod Liver Oil has long been acknowledged to be the most effective remedy for the cure of Consumption and kindred diseases, yet discovered what can be done to remove the disagreeable taste, which renders it so repulsive, particularly to invalids. The thorough incorporation of the Phosphate of Lime with the Oil, has only been accomplished by the adoption of the most perfect principles of chemistry, by a medicine by which many reduced subjects of inestimable value in a climate like our own.

A long train of certificates might be given here to prove the efficacious character of this medicine, that it is not deemed necessary. The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestioned excellence.

TIME ALTERED!

WING'S Bangor and Mattawamkeag EXPRESS.

(LATE HUNTRESS' EXPRESS.)

THE subscriber having bought all the interest in the above named Express, will run the same between *Bangor and Mattawamkeag*, for the present, as a certain remedy for the cure of Dyspepsia in all its accompanying disorders, to wit:

Sour and Sick Stomach, Loss of Appetite, Lowness, Pain in the Side and Breast, Palpitation of the Heart, Fevers and Eruptions of the Face, Chills and Fever, Gravel, and Diseases of the Kidneys, Weakness of the Limbs, Vomiting, and all diseases peculiar to Females.

Nearly every person in more or less afflicted with Dyspepsia or some of the diseases connected with it, and it is with feelings of pleasure that Dr. Schenck can announce to all such the discovery of the virtues of the Sea Weed which is now presented in pills for sale at all agents.

Dyspepsia and its many distressing consequences from it, is caused by the deficient secretion of the gastric juices, and weakness of the parts on which these work. The effect of the Sea Weed Tonic is felt soon after it is taken, as the pills are purely vegetable, and the nutritious principles of the food eaten are digested naturally. In short the Tonic Sea Weed resembles the natural juices in the stomach even had difficulty in distinguishing them. It gives tone and strength to the whole system; it at the same time acts with the greatest certainty upon the Liver, Skin, Bowels and Kidneys, regulating each organ to a healthy action; is a sure and drastic, and never gives pain as most purgative pills do; they stimulate the liver without endangering the patient with salivation, as mercurial pills do; containing no mercury in their composition, they are harmless when used for a length of time. They are tasteless, being merely put up in elegant coating of gum. Regulate, 4 to 6 pills—good, at all times.

As a Family Physic

SEA WEED TONIC PILLS are the most efficient, safe and pleasant physic to use. They are a quick and certain cure for Costiveness, Indigestion, Ill & Complaint, Kidney Complaints, Jaundice, Head Ache, Nervousness, Melancholy, Dizziness, Diseases of the Bladder.

Female Complaints,

Leucorrhœa, Whites and Irregularities of the Monthly Periods.

Bilious Diseases,

Fits can be smoothed, Bilious Colic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.
